

4. Write a C program to display the ASCII integer value of a character

```
#include<stdio.h>
```

```
int main()
```

```
{
```

```
    char character;
```

```
    printf("Enter a character");
```

```
    scanf("%c", & character);
```

```
    printf("ASCII value of %c is %d\n", character,  
character);
```

```
}
```
