

7. Write a C programme to calculate and display the area of a circle input radius through keyboard

```
#include<stdio.h>

int main()
{
    float radius, area;

    printf("Enter the radius: ");
    scanf("%f",& radius);

    area = 22*radius*radius/7;

    printf("area = %f\n", area);
}
```
