

6. Write a C program to display the Fibonacci series of a given term using function. Function should receive the number as argument and print the series

```
#include<stdio.h>
```

```
void fibonacci(int);
```

```
int main()
```

```
{
```

```
    int n;
```

```
    printf("Enter number of terms: ");
```

```
    scanf("%d", &n);
```

```
    printf("Fibonacci series: ");
```

```
    fibonacci(n);
```

```
    return 0;
}

void fibonacci(int n)
{
    int i, a=0, b=1, next;

    for(i=1; i<=n; i++)
    {
        printf("%d ", a);
        next = a + b;
        a = b;
        b = next;
    }

    printf("\n");
}
```
